

塑料行业 荣格技术创新奖
Ringier Technology Innovation Awards 2010 Plastics Industry

该款机型曾荣获塑料行业 2010 年度荣格技术创新奖,“简化模具,整合周边”是本机的设计理念。相较于传统的多步骤手柄包胶成型,该机让客户在一台设备上完成了多个工序,有效地节省了人力同时为客户节省了高昂的模具开发成本。适用于各类多色手柄包胶,如螺丝刀、钳子柄、单车把手等的手柄包胶。

Model:
FT-800-2CM
FT-1200-2CM
FT-1600-2CM

Multi Color/ Material Injection Molding Machine

- 1.module design with variety of high efficient and stable injection device for option.
- 2.every injection station has special clamping force, direct hydraulic clamping prolong the service life of the machine
- 3.Center rotation used small planet gear device and bolt positioning device. Turning rapidly and accurately.
- 4.Central tower movement is controlled by line transducer , speed and position can be operated by panle, quick and convenient.
- 5.Update to 6 stand, 8 stand, high production efficiency.
